

Machine operator in Nossen (Greater Dresden Germany)

The SCHOLLGLAS Group is a globally oriented and independent company network, with the areas of trading and processing flat glass, insulation glass and safety glass. Since 1969, we have been constantly developing at around 13 locations with around 1400 employees.

For our location In Nossen we are looking for **machine operators** (m/f/d) as soon as possible.

Our requirements:

- Extensive experience in machine operating, preferably but not mandatory in glass processing machinery
- Safe operation of machines and systems
- careful and independent way of working
- Physical performance, motivation, teamwork and reliability
- Willingness to work shifts
- Basic knowledge of German language

What we offer:

- a secure job in a constantly growing environment
- interesting and varied activities as well as development opportunities inside production
- a performance-related remuneration with the corresponding surcharges for shift work
- Support in finding accommodation
- Assistance with administrative procedures
- Assistance with setting up accounts
- Support for filling out forms
- Holiday and Christmas bonuses
- 38-hour week, also in shift operation
- Company pension scheme
- Capital-forming benefits
- subsidized lunch, free drinks
- Provision of work clothes and all necessary work equipment
- good working atmosphere

Your tasks:

- Operating CNC controlled systems for glass processing
- Independent set-up of the machines
- Carrying out maintenance and minor maintenance work
- Quality control
